

QUALITY POLICY STATEMENT

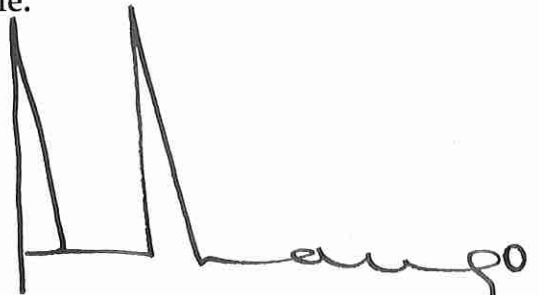

MultiScope Consulting Engineers is committed to providing exceptional and efficient professional consultancy services to our Clients by ensuring that the adopted engineering solutions are creative, innovative, feasible, and economical and foster sustainable development in addition to combating climate change.

This shall be achieved through the establishment of **Strategic Quality Objectives** at relevant functional levels and by meeting **Statutory, Regulatory, Client, and ISO 9001: 2015 Standard and other Interested Parties** requirements including considerations for climate change mitigation and adaptation into every aspect of our consultancy services.

To measure the **Suitability and Effectiveness** of the Quality System, the management shall monitor, analyse, and evaluate the Performance of the Quality System through **Internal Audits and Management Reviews** as a Commitment to **Continual Improvement** of our Quality Management System and **Enhancing Client Satisfaction**.

MultiScope will recruit, train, and nurture people so that they embrace the adage that **Quality is everyone's responsibility** further reinforcing our commitment to excellence and sustainability.

Further, the policy is displayed in our office premises, posted on our website, and at other appropriate media for interested parties and public information where applicable.

Eng. Samuel .N. Maugo
The Managing Director
